Udemy, Issued Dec 2024

The Complete Python Developer ⬈
Udemy,Issued Feb 2025

Projects

Movie Data Analysis and Rating Prediction
Explore and Analyze Data.Predict Movie Ratings

Dive into a comprehensive movie data analysis platform powered by Python and Streamlit. This interactive website allows users to visualize insights through dynamic charts, and predict movie ratings using machine learning models. From budget and genre analysis to uncover the factors that shape a movie's success — and forecast its rating with intelligent predictions.
